

*About the developer and system administrator of this site*

*My name is Robyn Collins and I have been involved in this amazing industry for over 30 years. In 2003 I started a hairdressing technical consultancy and education company. I have worked with stylists and salons throughout the lower North Island for the past ten years. I love education and working with the development of young stylists. Having formerly educated stylists in pre-trade courses, off job hairdressing and barbering for 8 years I have now developed this online education resource. The educational resources, activities and assessment material are made available on the Moodle learning management system.*

*I am currently training stylists in salons, developing / facilitating moodle in addition to maintaining a small client base at Protégé Hairdressing always looking for fresh ideas and techniques to maintain current skills and knowledge, I compete successfully at regional and national level and enjoy photographic work as well.*

*I look forward to working with you all and sharing some excellent resources to help you on your hairdressing journey.*
